USE QUEEN LILY SOAP

GUARANTEED TO WASH WITHOUT RUBBING.

THE QUEEN LILY SOAP

Has extraordinary merits, and is in good repute with the public, and that is why it is so extensively imitated and counterfeited.

These counterfeits resemble the Queen Lily Soap in appearance and style of packing only. They lack the purity and general excellence of the genuine.

This notice is necessary, as vilely injurious and dangerous imitations, liable to produce chronic inflammation of the skin, are often substituted for the Queen Lily, because they pay a larger profit.

The price of the Queen Lily is as low as consistent with the cost of making such a high grade of pure soap. The price, compared to the quantity and the size of the cakes, makes it the cheapest soap for everybody and for every want. Consumers have simply to insist upon having the Queen Lily, remembering that if any substitute is offered it is for the advantage of the seller.

The Queen Lily is the finest soap known for laundry and general household use. It is made of vegetable oils, and everything used in its manufacture is the purest and best, so it is absolutely pure.

Ladies will find this soap especially adapted for washing laces, infants' clothing, silk hose, cleaning gloves and all articles of fine texture and delicate color, and for the various uses about the house that daily arise requiring the use of soap that is above the

ordinary in quality. For the bath, toilet or nursery it is preferred to most of the soap sold for toilet use, being purer and much more pleasant and effective, and possessing all the desirable qualities of the finest unadulterated White Castile Soap. Respectfully,

FISCHBECK & GLOOTZ,

Manufacturers of all kinds of Toilet and Laundry Soaps.

IRVING INSTITUTE

SELECT BOARDING
AND DAY SCHOOL
FOR GIRLS

1036 Valencia Street

SAN FRANCISCO, CAL.

UNDER the management of the Rev. EDW. B. CHURCH and wife, has been well known for many years past as a thorough training-school and refined Christian home for young ladies. It is situated at the corner of Valencia and Hill streets, San Francisco, in a portion of the city highly esteemed for its climate and healthfulness. It has always maintained a high standard of scholarship, and in consequence has enjoyed a continuous and steadily increasing prosperity. While, by means of the Valencia street cable-cars, it is within a few minutes' ride of the heart of the city, it is yet only five minutes' walk to the hills, where the full benefits of the country can daily be enjoyed.

The buildings are commodious and sunny, and equal in convenience, elegance and comfort to those of any other institution on the Pacific Coast. The school rooms, reception rooms, music and art rooms are all well adapted for their uses, while the Assembly Hall, twenty-eight by sixty-three feet in dimensions, gives fine opportunity for indoor exercises, gymnastics and dancing, and is well adapted for rhetorical exercises, musicales and lectures. The library is supplied with over one thousand choice volumes; and the reading-room, with the leading periodicals, is bright and cheery, and opens into the plant conservatory.

The regular course of study includes all the usual preparatory subjects, taught according to the most approved methods, with such of the higher or collegiate studies as may be necessary for an intelligent understanding of the best current literature on philosophical and scientific subjects. The modern languages are taught by the natural method, conversationally and practically, giving ease and freedom in the use of the foreign tongue. The monthly musicales, rhetorical recitals and home receptions enable the young ladies to put in practice the systematic instruction given by the lady principal in manners and social usages, and to acquire that ease and grace of bearing which is so essential to a lady.

The young ladies, at the request of parents, are taken to concerts and lectures, and to hear the most noted singers and actors in opera and the standard drama. They also have access to the libraries, cabinets and art collections of San Francisco. The Institute has a cabinet of mineral and geological specimens, chemical and philosophical apparatus, a compound microscope and an astronomical telescope, and photographs of the best specimens of European architecture, sculpture and painting. The classes in drawing and painting are conducted on the principles of the best European Art Schools, by teachers thoroughly qualified, and under the over sight of the lady principal, who spent some time in Europe in special study of the fine arts and art methods.

The discipline of the school, without being harsh or severe, is all that the most careful parent could wish. Truthfulness, economy and right habits of thought and action are inculcated and encouraged. The pupils express their thoughts and wishes freely to principals and teachers, as to friends who have their best interest at heart, and response is given accordingly. This cordial frankness and mutual sympathy is a marked characteristic of the school, and is the surest foundation of a happy school-life and a true culture.

P R E F A C E.

THE public will notice that this, the thirty-fifth volume of LANGLEY'S SAN FRANCISCO DIRECTORY, is issued a month earlier than its predecessors of recent years, and will, it is hoped, find it more valuable on that account. Visitors to the Midwinter Fair will undoubtedly appreciate the change.

Attention was called last year to the defective numbering of the streets. Since that time, the Superintendent of Streets has effected a considerable improvement, and is still engaged in the work, which it is hoped will be completed this year. It will ultimately prove of great public benefit, for which credit should be given to that officer.

Attention is called to the addition of a new feature to this work, consisting of a classified directory of the Chinese doing business in this city, which will be found immediately after the regular business directory.

In the first part of the book will be found the numbers and boundaries of each of the congressional, senatorial and assembly districts, and also of the two hundred and ninety new election precincts, into which the assembly districts were recently subdivided.

In view of the exposures during the past year of directory swindlers, the public is again cautioned to have nothing to do with canvassers or collectors claiming to represent this Directory, unless provided with the regular badge and printed blanks bearing the imprint of LANGLEY'S SAN FRANCISCO DIRECTORY.

Finest Qualities, Latest Styles HATS at BEAMISH'S

Make the address on letters legible and complete, giving the name of the post-office, county and State. The name of the street and number of the house should also be given on letters addressed to cities where letter carriers are employed; while the letter will eventually reach its destination without a number, the omission is often a cause of hesitation and delay. In the case of letters for places in foreign countries, the name of the country as well as the post-office should be given in full. Letters addressed, for instance, merely to "London," without adding "England," are frequently sent to London, Canada, and vice versa, thereby causing delay, and often serious loss.

FREE POSTAL DELIVERY.

The Free Postal Delivery System is similar to the one so successfully maintained in several of the large Eastern cities. There are one hundred and sixty-seven districts, each of which is in charge of a carrier, who delivers promptly all mail matter received at the Post Office upon which is written the correct address, street and number of the party for whom it is intended.

All persons who desire their letters, etc., retained until called for, must leave their address at the Post-Office.

PUBLIC STREETS, AVENUES, SQUARES, PLACES,

CITY OF SAN FRANCISCO,

OF THE CONSOLIDATED
IN ACCORDANCE WITH THE OFFICIAL MAPS, 1868, 1870, AND 1872
AND SUBSEQUENT ORDINANCES

EXPLANATORY.—The Ordinance for re-numbering the buildings of this city provides that "Market Street shall be the starting point for the numbers of all buildings fronting on the streets running therefrom in a northerly direction, and also for those running therefrom in a southeasterly direction. The streets laid down in the official map of the city as forming the water front thereof shall be the starting point for numbers on all streets running westerly and southwesterly therefrom, except upon such streets running westerly commencing from Market Street, and upon all such streets, Market Street shall be the starting point for numbers. On all streets the numbers on the right hand side, starting from the point as may be necessary, shall be allotted to each block bounded by principal streets; numbers 100, 200, and 300 being respectively the numbers for commencing the blocks distant one, two, and three streets from the starting point on the side designated for even numbers, and numbers 101, 201, and 301, in similar manner for the opposite side of the street, throughout its extent; so that the initial figure of the number placed on a building at any street-crossing shall indicate the number of main streets such street-crossing is from the starting point. Not less than twenty feet in frontage of all vacant lots of ground shall be allowed for each number. On all streets the intermediate streets the numbering shall commence where said streets begin, and shall conform to the plan specified in this Order."

By this new decimal system of numbering buildings, the exact location of any number is readily ascertained; for example, if you want to find 624 Montgomery, it is on the east side of the block extending from Clay to Washington, which is the seventh from Market—Commercial and Merchant being private streets. Again, 825 Clay is on the ninth block from the water front, which is the one extending from Dupont to Stockton. It must be borne in mind that one hundred numbers are allowed on each block between principal streets.

The following streets are but partially opened, and each differ materially from the plan originally laid out, viz: Clementina, Ecker, Jessie, Minna, Natoma, Rich, Shipley, Stevenson, and Tehama.

The territory lying west of Laurel Hill and Odd Fellows' Cemetery, and generally known as the Outside Lands, has recently been surveyed, and is designated on the new official City and County Map as avenues and streets. Those running north and south are named respectively from First to Forty-ninth avenues, and those running east and west, from First Avenue to the Ocean, and parallel with Point Lobos Avenue, A to W streets.

Reference is frequently made in the Register of Names to the following, and which are located as follows: Hoadley's Addition, situated west of Pierce and between Geary and Washington; Horner's Addition, south and near the Mission Dolores; Western Addition, west of Larkin; San Miguel Ranch, located near the Mission Dolores; Bernal Heights (B. H.), south of Twenty-sixth Street, between San Bruno and San José Roads; and University Mound Tract (U. M. T.), west of San Bruno Road, five miles from the City Hall. See, also, Prominent Places, and Street Directory.

(b) Street not opened. (c) Fractional blocks, one hundred numbers allowed for first two blocks. (d) Fronting the bay. (e) Street ends. (—) Street does not cross. B. H., Bernal Heights. U. M. T., University Mound Tract. S. S. F., South San Francisco. A blank is used where the number at the crossing of a street could not be ascertained.

NOTE WITH REFERENCE TO SOUTH SAN FRANCISCO STREETS.—The names of the Avenues in South San Francisco have been changed back by an ordinance of the Board of Supervisors to the original numbers with the addition of the word *South*. For instance: Fifteenth Av. South, formerly Teneriffe St. The cross streets which were originally lettered were some years ago given names in place of the letters, and such change still remains in force.
